#### 5.1. 3. Details of student counseling and career guidance

**Personal Counselling:** The faculty members support students through counselling for their various needs to address educational, social, psychological and financial issues. Girl students are guided to pursue higher education. The college attempts to address both social and psychological issues relating to academic and carrier orientation of the students. Student counselling is made at two levels, individual and group counselling.

Individual Counselling: Generally, an individual teacher monitors the behaviour and attendance of students in the classroom. The teacher interacts with the students with poor attendance. When taken into confidence the students reveal the reasons for their failure to attend classes. Most of the students belong to low income group. As a result, students work in their farms / fields to support their families. The staff members extend financial support to such students. However, all such actions are never brought on the record. Many of the faculty members meet parents to know the problems and difficulties faced by their wards and render suitable remedy.

**Group Counselling**: At the beginning of every academic year, Principal and Senior faculty give an opportunity address to the students elaborating on academic opportunities, carrier prospects and opportunities for financial support available to students. The lectures are informative as well as morel booster for the students. Students are informed about various support services available in the college. They are advised to contact the principal or faculty member if they face any problem.

Parent Counselling: The College organizes a special event for the parents of the girl students. Under this event mothers of girl students are invited to the college. The parents are shown the various facilities which the college provided for their daughters. They actively are carried out to boost the confidence among the parents.
